WELCOME TO THE UNLIMITED FAMILY!

Congratulations!

You've chosen to protect yourself and your family with Gap Cover. And because you're now with The Unlimited, you have joined a family of over 3 million South Africans who we take care of every day.

YOU'VE GOT GAP!

As a hard-working South African, we understand how important it is to make sure that you and your family are protected from unexpected medical expenses.

When you go to hospital, there are costs that need to be paid, such as doctor's fees, specialists, etc. Each medical aid pays a predetermined amount towards these medical procedures.

The reality is that medical aids don't always pay all your in-hospital costs.

This means you could be left with a medical expense shortfall (a GAP) that could easily be thousands of Rands. Or even more! So, a medical expense shortfall is the amount of money that is left for you to pay after your medical aid has contributed to your medical costs.

WE STEP IN WHEN MEDICAL AID STOPS.

Gap Cover with The Unlimited steps in to help cover the medical expense shortfall between what the in-hospital medical expenses are and what your medical aid pays – up to 600%. **Yes! You've made the right decision to cover you and your family!**

YOU'VE GOT A GREAT DEAL!

You could easily pay up to *R500 per month for Gap Cover. Because you're a valued hard-working professional, you can now protect yourself and your family **for only R350 per month (incl. VAT), including an insurance premium of R230.**

That means absolute peace-of-mind, knowing that:

- You don't need to worry about finding ways to pay unexpected medical bills!
- You're covered for medical emergencies – up to R10 000!
- You could save on expensive doctor's visits with 24hr access to Telephonic Medical Advice from trained medical professionals!

*This amount is based on research completed twice a year by The Unlimited.

HOW DOES YOUR GAP COVER WORK?

1

Let's say you went to hospital and your **claimable expenses** totalled R14 000.

2

Your **medical aid only pays** the standard medical aid rates amounting to R8 000.

3

That means you're left with a **shortfall** of R6 000 **to pay on your own!**

4

**YOU'VE
GOT GAP!**

Here's where your Gap Cover comes in. With Gap Cover, you simply submit your completed claim form and relevant documents (see our handy Claims Checklist) to cover this shortfall.

YES!

You made the right Gap Cover choice by joining The Unlimited family!

5

When your **claim is successful**, your medical expense shortfall amount is paid directly into your bank account.

WOW!
